Table A. 2 Effects of Parental Characteristics and Family Structure on Eighth-Grade Reading and Math Scores (Standard Deviation Units)

|  | Reading | Math |
| :--- | :---: | :---: |
| Female | $0.042^{* * *}$ | -0.01 |
| No biological father in house in kindergarten | -0.02 | $-0.046^{* * *}$ |
| No father/stepfather in house in kindergarten | -0.008 | 0.016 |
| SES in kindergarten | $0.058^{* * *}$ | $0.056^{* * *}$ |
| Age in kindergarten | $0.013^{* * *}$ | 0.004 |
| Parental help with reading and math in third | -0.011 | -0.006 |
| $\quad$ grade |  |  |
| Average hours of TV on weekdays, third and | 0.0003 | -0.001 |
| $\quad$ fifth grades |  |  |
| Does homework 5 or more days/week in third | -0.007 | -0.003 |
| $\quad$ and fifth grades |  |  |
| Female* father has BA or higher | $-0.039^{* *}$ | $-0.032^{*}$ |
| English as second language | -0.02 | -0.017 |
| Hispanic | -0.023 | -0.003 |
| Black | $-0.096^{* * *}$ | $-0.10^{* * *}$ |
| Asian | 0.009 | $0.034^{*}$ |
| Constant | 0.03 | 0.047 |
| N | 7,740 | 7,780 |
